

SUN PRAIRIE MEDIA CENTER

WHY DONATE?

Have you ever heard of a place where kids can produce television programs? Not star in, (although they do that too!), but actually produce the programs? A wonderful program called KIDS-4 is the place where young people can do just that.

While in the KIDS-4 program, young people have a safe place to go after school to learn meaningful life skills. They participate in community & school events, learn how to construct sets, write scripts & storyboards, operate video equipment and produce original programming. Underlying these obvious technical skills the kids learn while in the program are important social skills. Through working together on projects they learn how to collaborate and cooperate, understand and respect others' opinions and ideas, problem solve, develop their self-esteem and confidence, as well as develop their leadership qualities.

With your support we can ensure that the KIDS-4 program continues to thrive and grow along with the young people of the community of Sun Prairie.
